

The Georgia Green Party

A party of Compassion, the Politics of Hope

Why we need a Georgia Green Party NOW . . .

- | | |
|---|--|
| Because the children's future depends on it. | Because we lose dozens of acres of forests in the metro Atlanta area every day while chip mills are decimating southern native forests. |
| Because the future of life itself depends on it. | Because Du Pont wants to either mine the Okefenokee Swamp or have the public pay it \$90 million not to. |
| Because we have a RIGHT to clean air, clean water, clean soil, clean food and clean politics. | Because ending welfare as we know it doesn't seem to deal with the subsidies benefiting corporations that pay wages that have families in poverty. |
| Because public forests and the public airwaves should serve people and future generations, not the profits of corporations. | Because the nuclear industry wants to ship radioactive wastes on the rails and highways of Georgia to dump it on Native lands out West. |
| Because tripling the number of Georgians imprisoned at taxpayer's expense has not made our communities safer. | Because instead of a peace dividend, women are raped every six minutes in the midst of an ongoing reliance on impoverishing militarism, including at least two Georgia bases with nuclear weapons. |
| Because spending half of federal tax dollars on preparations for war does not make us more secure. | |
| Because neither race baiting nor ignoring racism has saved our jobs, wages or working conditions. | |
| Because the globe is warming, the seas are rising, the polar caps are melting and hundreds of species become extinct every month. | |
| Because the state DOT wants to spend \$5+ Billion on a Second Perimeter Highway while a 1,000 people die annually from polluted air diseases in metro Atlanta, alone. | |

Why do we need a Green Party now?

***Because the madness must stop.
Because peace and justice are possible in our lifetimes.***
